## ■ Assembly and disassembly/loading and unloading on the grounds of the Congress Center Rosengarten for vehicles over 1.90m (trucks, sprinters etc.)

To access the grounds of the CC Rosengarten (for loading and unloading during set-up and dismantling periods), turn right from Friedrichsring in front of the Dorint (behind the pharmacy) (see sketch). The access road is equipped with a barrier. Upon entry, staff will note the time of entry and arrange the time of exit.

Vehicles may not be permanently parked on the premises, only for loading and unloading!

Please note that cars for delivery and collection must be parked in the underground car park for a fee (see next section).

If you are delivering pallets, please note that the Congress Center Rosengarten cannot provide a pallet truck and that you will have to bring your own.

## ■ Assembly and disassembly/loading and unloading for vehicles under 1.90m (cars etc.)

Access for cars is via the underground car park "Congress Center Rosengarten" (access via Stresemannstraße).

No vehicles under 1.90m in height may drive onto the outdoor area (see above) during set-up and dismantling for loading and unloading.

There is direct access to the Congress Center from the underground parking garage (via stairs or passenger elevators).

Please note that the access is manned by staff.

Please take the elevator to level -1 (Eingang Rosengarten).

The staff waiting near the elevator will drive you further to the desired level.

Only vehicles higher than 1.90 m may enter the Rosengarten area during installation and removal and only for loading and unloading purposes!

## 05 | Stand information A – Z

*The legal stipulations and regulations in their most current form and the Technical Guidelines of m:con must be observed for all exhibition stands, facilities, exhibits, materials and advertising that are brought into the Congress Center Rosengarten.*

### ■ Additional orders

Orders for additional equipment can be placed online via the [exhibitor portal](#) until **October 27th 2024**.

Orders for additional equipment only online!

After the above-mentioned date, orders can be placed on site only plus an extra charge of 20 %!

The delivery of the furniture/plants ordered via m:con is scheduled for November 23rd by 04:00 p.m.. Ordered power connections/ internet connections will be available on the areas from the start of set-up.

### ■ Adhesive Tape

A special adhesive tape for delicate floors must be used before using double-sided tape, gaffer tape, etc. in floor 0:

Floor 0: Tesa Präzisionskrepp 4334 **gelb**, 50mmx50m  
Mozartsaal, Musensaal, Stamitzsaal, Rosengartenlounge: Tesa Präzisionskrepp Sensitive PV 1- 4333 **rosa**, 50mmx50m

You can then continue to work with standard adhesive tape on top of this special tape. When dismantling, please ensure that all tape is removed without leaving any residue! Marks that have not been removed will be eliminated at the exhibitor's expense. This tape can be bought on-site.

### ■ Audio- / visual presentations

Any kind of presentations on the stand requires the organizer's approval. Approval is granted with the pre-requisite that the presentation will not negatively affect or interrupt neighbouring stands and the ongoing congress. The organizer shall have the right to cancel a presentation in the event of disregard for his regulation.

**FOR EXHIBITORS:** Important information – compact and clear

## ■ Barrier-free construction

When building the stands, attention should be paid to accessibility. Stands and their facilities should also be accessible and usable for people with limited mobility without assistance.

## ■ Construction heights and stand construction specifications

The maximum construction height for stands vary from floor to floor. Restrictions owing to structural causes have to be observed.

- in the foyer on floor 0: 3.50 m (limited construction height in the side foyers below the gallery, no constructions below the fire curtains!)

**Stand constructions from 2.50 m upwards must be submitted to the exhibition organization for approval by October 11<sup>th</sup> 2024 [via this form](#).**

The submitted stand construction permit form must be accompanied by a dimensioned floor plan including the position of the power connection and a dimensioned height section. Only complete stand construction permit forms will be admitted to the approval procedure! Construction-related restrictions must be observed everywhere.

Stand constructions below 2.50 m in height and foldable stand systems do not have to be submitted for approval.

The back side of stand constructions bordering neighboring stands, as well as stand constructions that stand in the open, must be neutral in color (white or light gray) and of a smooth surface.

Floorings of all kinds that exceed the height of 4 mm require approval by the organizer, have to be highlighted in contrasting color, and secured against stumbling and tripping.

For safety reasons, we additionally recommend securing floor coverings with a height of 2.5 cm or more with canted edges in contrasting color or by backlighting the stand edges.

Please also be sure to stick to [the technical guidelines](#).

## ■ Damage

The exhibitor is responsible for damage to facilities of Congress Center Rosengarten, floors, etc., as well as to material let or lent to them.

The maximum construction height for stands vary from floor to floor. Restrictions owing to structural causes have to be observed.

## ■ Disposal

In general, reusable and eco-friendly materials have to be used for the installation and the operation of a stand. It is not allowed to leave any materials at Congress Center Rosengarten. Any materials left are disposed of without checking the value at the exhibitor's cost and at a higher charge.

In general, reusable and eco-friendly materials have to be used for the installation and the operation of a stand.

## ■ Electricity

The laying of electrical cables outside the stand, as well as connection to the supply network may only be carried out by m:con. For electrical installations inside the stand, as well as for the laying of electrical cables, the instructions of VDE have to be observed. It is recommended to order m:con to carry out the work inside the stands as well.

Please note that our staff must have access to the electrical connections and distributors at all times in the case of technical faults.

Therefore, please plan your stand with access to the electrical connections and place the power distributors within easy reach on your stand area, for example in a planned storage area. If the connections are not accessible, we cannot guarantee that everything will run smoothly.

**The equipment and lighting of the stands must be disconnected from the power supply by the exhibitor or stand constructor daily after the end of assembly/dismantling and the end of the event or before leaving the stand.**

The equipment and the illumination of the stand have to be disconnected from grid before leaving the stand respectively!

In case of non-observance as to the above mentioned switching off regarding equipment and illumination, m:con reserves its right to charge any costs that may result from additional consumption of electricity to the exhibitor's account. In order to provide suitable protection, all electrical appliances which generate or radiate heat (cooking plates, spotlights, transformers etc.) must be mounted on non-flammable, heat resistant bases not containing asbestos. These require approval which must be applied for from m:con at least **until September 27<sup>th</sup> 2024**. Devices which do not have a CE marking may not be used as a matter of principle.

The exhibitor is responsible for the self-installation on the stand. If you wish electrical installations at a certain place, we ask you to let us have a sketch accordingly. If you require electricity, you can place your order [online](#).

**FOR EXHIBITORS:** Important information – compact and clear

## ■ **Emergency exits and escape routes**

The aisles between the exhibition areas serve as escape routes in cases of Emergency. At no time these aisles should be blocked. Escape routes must always be kept free of hindrance.

The exit doors, emergency exits and their signposting must never be obstructed, built over, closed in, obstructed by drapes or disfigured in any way.

## ■ **Empties**

During the installation, the duration of the congress and the removal, it is not allowed to store empties on the stands, outside the stands, inside the Congress Center Rosengarten and in its outside area. Dispatch and storage of empties can be dealt with by the forwarding company Schenker (address see “Storage”, page 10).

## ■ **Examination of the rented space**

After the assignment of space, exhibitors must make themselves aware of any fixtures, in particular hall pillars, fire alarms, wall hydrants, ventilation systems, as well as uneven flooring. m:con shall not be responsible for the accuracy of dimensions on hall and stand plans.

## ■ **Exhibition construction company**

The exhibitor's service handbook and all important information according the exhibition have to be forwarded to the exhibition construction company and other service providers by the exhibitor.

## ■ **Fire protection**

All materials of the stand have to be flame-resistant according to DIN 4102-1 (B1). The exhibitor must be able to furnish proof of flame-resistance on the stand at any time.

The fire extinguishers, wall hydrants and emergency buttons at Congress Center Rosengarten must not be blocked or made inaccessible under any circumstances. It is not permitted to render the instruction signs illegible.

## ■ Floor covering

Floor 0: granite anthracite

Floor coverings and other floors have to be laid accident-proof and must not project over the boundary of the stand. If you lay floor coverings using double-sided adhesive tape, please note that it has to be removed without residue on removal. On floor 0, adhesive tape suitable for natural stones must be used (see Adhesive tape, page 11). Remaining residues will be removed at the exhibitor's cost.

The maximum floor loading capacity is 500 kg per sqm. In case that heavier exhibits are to be installed, it has to be arranged with and approved by the organizer. Loads should be distributed, concentrated heavy loads have to be avoided at any rate.

## ■ Forklift trucks / hand pallet trucks

Please note that Congress Center Rosengarten cannot place forklift trucks and hand pallet trucks at your disposal. This service can be dealt with by forwarding company Schenker (address see "Storage", page 10). Please note that the use of forklift trucks is not allowed inside.

## ■ Glass and plex-glass constructions

Only safety glass may be used in the construction of superstructures. Glass panes must be of a round edge construction or finished in such a way that potential injury risks are ruled out. Constructions made entirely of glass are to be marked at eye level. Safety glass must be used for any superstructures. Edges of glass sheets must either be rounded or designed in such a way that there is no risk of injury. Structures made entirely of glass must be marked at eye height.

## ■ Grinding work and all work with naked flames

All welding, cutting, soldering, thawing, grinding and other work which poses a fire hazard must be reported to m:con before the work starts and applied for in writing each day. Areas surrounding such flame work must be adequately screened off to eliminate danger. Fire extinguishers must be kept in the immediate vicinity.

If you lay floor coverings using double-sided adhesive tape, please note that it has to be removed without residue on removal.

# servicehandbook

**FOR EXHIBITORS:** Important information – compact and clear

## ■ Guarding

The organizer of the exhibition provides a general guarding without accepting responsibility for damage or loss. Articles brought to Congress Center Rosengarten are at the owner's risk, m:con accepts no responsibility for articles deposited. The exhibitor has to take care of a special guarding for his stand and goods himself. Stand guarding service can only be ordered [online](#).

## ■ Hazardous materials

It is forbidden to use open fire or naked light, e.g. spirit, fuel, oil, gas, etc.

## ■ High-frequency units and radio units

The use of high-frequency units and radio units requires approval which must be applied for from m:con at least until October 10<sup>th</sup> 2024.

Failure to register may result in disruptions to the event, which will incur costs to be carry by the exhibitor.

This concerns for example radio microphones, headsets and guided tour systems which are used for lectures at the booth.

Furthermore, we would like to point out that the commissioning of frequency devices always requires prior registration with the Federal Network Agency, unless they have a general allocation.

This can be done by contacting:

Dirk Otto

Federal Network Agency

Seidelstrasse 49

13405 Berlin

**FOR EXHIBITORS:** Important information – compact and clear

## ■ **Householder's right**

m:con and the service providers commissioned by m:con shall have householder's rights vis-à-vis the exhibitors, their builders and all individuals located in the exhibition space. The organizer shall have the right to expel from the Congress Center Rosengarten individuals who do not adhere to the regulations of m:con or the services providers commissioned by m:con or who violate the conditions for participation. The organizer shall also have the right to ban these individuals. m:con, persons commissioned by m:con, the police, the fire department and the supervisory authority shall have access to the stand at any time.

## ■ **Illumination**

Possibly, the general illumination at Congress Center Rosengarten is not sufficient to illuminate the individual stands effectively. In your own interest, we recommend to plan an additional installation of illumination on your stand.

**The equipment and lighting of the stands must be disconnected from the power supply by the exhibitor or stand constructor daily after the end of assembly/dismantling and the end of the event or before leaving the stand.**

## ■ **Information counter for exhibitors**

During the congress an information counter for exhibitors will be operated at the conference counter where an employee of ours will be at your disposal for repeat orders and for any queries concerning your participation in the exhibition that may occur.

## ■ **Installation of stands**

All stands have to be installed as self-supporting constructions. Fastenings on the walls, pillars and floors of the halls are not allowed. Pillars, buttresses, projections etc. within the exhibition area are part of the allocated space. It is not allowed to exceed the allocated space for installation. Sticking up of advertising material on the walls, pillars or other parts of the venue is not allowed. The exhibitor is liable for any damages owing to violations and is responsible for the security of the stand; they must provide evidence of this.

Lighting facilities and signs may not exceed the limits of the stand. m:con retains the right to bill for any additionally used space.

**Escape routes, fire alarms, hydrants, electrical distributors, switchboards and telephone distributors have to be accessible.**

# servicehandbook

**FOR EXHIBITORS:** Important information – compact and clear

The backs of stands adjoining neighboring stands must be completely smooth and white (not only from 2.5 m height and not black or similar).

Rear sides of stands which are visible and back onto neighboring stands or those stands which are free standing must be of a smooth construction and neutral colour (white or light grey).

Escape routes, fire alarms, hydrants, electrical distributors, switchboards and telephone distributors have to be accessible. A minimum safe distance of 0.5 m to the ceiling sprinklers has to be kept.

The exhibition organizer reserves the right to insist on the modification of stands which are deemed inadequate or non-approved along with the right to order the removal of inappropriate exhibits when these are either bothersome or dangerous to visitors or exhibitors. Serious security defects can also lead to either partial or complete closure of the stand.

## ■ Insurance

The exhibitor shall be liable for all personal and material damages that arise from the operation of their exhibition stand and materials. It is recommended that the exhibitors obtain adequate insurance protection.

## ■ Internet access / EDP

Please note that in case of orders for internet access, the configuration or installation of additional hardware and software brought by the customer is not included in the range of delivery. The exhibitor is responsible for the observance of the licensing agreement in case of software brought by himself. Internet access can only be ordered [online](#). The exhibitor is responsible for the rented technical equipment for the duration of the rent.

## **WLAN Basic Version**

The Congress Center Rosengarten provides a WLAN basic version free of charge (bandwidth 768 kb/256kb) per unit, usable internet services like http, https, mail. The data traffic is limited. Passwords for the basic version will be published by the organizer.

## **WLAN Premium Version**

The WLAN premium version – subject to charging! - includes usage of all legal internet services and unlimited WLAN-bandwidth per unit. The data traffic is prior to the basic version.

# servicehandbook

**FOR EXHIBITORS:** Important information – compact and clear

For increased traffic and complex presentations on the booth we recommend the booking of a broadband LAN-connection.

***Exhibitors at the Congress Center Rosengarten are not permitted to set up and run their own wireless networks.*** Non-compliance with this regulation may as applicable result in claims for damages by the event organizer or the neighbouring exhibitors affected.

## ■ Motor vehicles

The exhibiting of motor vehicles with internal combustion engines also as e-vehicles will be allowed in the CCR Rosengarten only under special conditions and has always be approved by the organizer. Please ask for the approval form by **September 27<sup>th</sup> 2024**. The instructions have to be followed strictly, if not, the vehicle has to be removed. Any costs will be charged to the exhibitor.

## ■ Multifunctional pillars

There are multifunctional pillars with the measures 1.15 m x 1.00 m in the side foyers in floor 0. On one side inside these pillars, there are connections (electricity, TV, EDP) and fresh air respectively hot air is entering from the other 3 sides of these pillars into the foyers. The pillars must not be surrounded or blocked and nothing may be fixed on them. All round the pillars, a minimum safe distance of 0.50 m has to be kept.

## ■ Musical reproduction

Any kind of musical reproductions shall be subject to provisions of the German Act for Protection of Copyright and Related Property Rights (“Urheberrechtgesetz”), Section 15 of the German Copyright Act (“Urhebergesetz”) (German Federal Law Gazette [BGBl]), and shall require the approval of GEMA, the musical authors’ rights society, which may be reached at:

## ■ Radiation protection

The use of radioactive materials and the operation of x-ray facilities, disruptive rays and laser facilities require approval and must be presented to the relevant authorities. The legal security regulations and stipulations must be observed. Legally stipulated approvals must be sought from the relevant authorities and be submitted to the exhibition organization until **October 11<sup>th</sup> 2024**.

## ■ Respirable dust badge: „Feinstaubplakette“

Please note that from 1st January 2013 on it is absolutely necessary in a few areas of Mannheim to place a respirable dust badge coloured green in your car or lorry. The Congress Center Rosengarten and the Wasserturm (underground car parks) belong to these areas. You may get this badge at the TÜV, DEKRA, authorized garages and by internet. Please read up on this topic! Further information please find e.g. at [www.umwelt-plakette.de/](http://www.umwelt-plakette.de/).

[verteiler-technische-leitung@mcon-mannheim.de](mailto:verteiler-technische-leitung@mcon-mannheim.de)

Please note that only authorized m:con staff is authorized to execute suspensions and that suspensions are only permitted in exceptional cases.

## ■ Theft

In order to keep the danger of theft as low as possible, we ask you, in your own interest, not to leave your stand unattended after the delivery of exhibits. In general, a stand guarding, especially for the nights, is to be recommended. In any case, you should lock away valuable goods during the night.

We recommend you never to leave your stand unattended during the opening hours and to make goods in danger of theft especially secure. On removal, we ask you not to leave your stand before valuable goods have been loaded or handed over to the carrier. If this is not possible, it is advisable to book a stand guarding.

## ■ Waste disposal

Please note that the stand rental fee does not include waste disposal or stand cleaning.

The exhibitor or stand constructor is responsible for the proper and environmentally friendly disposal of waste generated during the construction, running time and dismantling of his stand.

It is also possible to order various waste bags for waste separation (e.g. paper/cardboard, foil, residual waste) for a fee. **Orders can be placed via the [online exhibitor portal](#).**

Stand cleaning can also be ordered for a fee via the online exhibitor portal.

# servicehandbook

FOR EXHIBITORS: Important information – compact and clear

Please note that stand cleaning does **not include waste disposal** and that waste will only be collected in the bags ordered.

Large quantities of set-up and dismantling waste, pallets, carpets and leftover parts from stand construction will not be collected and must be taken away by the exhibitor / stand constructor.

## ■ Woodworking

The German regulation concerning hazardous substances (GefStoffV - §8 Paras. 2.2 and 2.7) requires that appropriate suction equipment be fitted to woodworking machines. If this regulation is not heeded, Rosengarten Congress Center will stop assembly work.
